DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 6-12, 17-24, and 26-35 are rejected under 35 U.S.C. 102(b) as being anticipated by Minfelde et al (US Patent Application Publication 2003/0045879).

Minfelde et al disclose a titanium or stainless steel (**Page 4, Paragraph 0050**) device (**Figures 1-5**) comprising: a bone-engaging member (1) with a spherical head (9) polyaxially connected to a receiver (4 together with 14) via a cavity (8); the receiver also providing an U-shaped (defined by legs 18, 19) recess (25) for seating spinal rod (3); an externally threaded set screw (23) which interface with internal threads in the receiver. In use, several of these devices are aligned along a spinal rod for corrective surgery.

Response to Arguments

Applicant's arguments with respect to claims 1, 6-12, 17-24, and 26-35 have been considered but are moot in view of the new ground(s) of rejection.
